**Providence is calling a Child Development Teacher to Providence Alaska Medical Center in Anchorage, Alaska.**

We are seeking a Child Development Teacher to manage classroom and implement curriculum in accordance with licensing and NAEYC Accreditation standards and evaluates the effectiveness of the program. Supervise and mentor in-room staff.

**In this position you will:**

- Design and implement an emergent curriculum founded on Developmentally Appropriate Practice and NAEYC Accreditation standards
- Communicate appropriately (verbal and written) with children, parents/families, teaching and management teams.
- Plan and facilitate developmentally appropriate learning experiences, activities and interactions.
- Complete forms and records related to children's development and learning experiences.
- Create and maintain a safe, organized, well supplied and varied learning environment.
- Maintain a safe and healthy environment through adequate supervision of children and implementation of infection control procedures.

**Required qualifications for this position include:**

- High school diploma or GED.
- A Child Development Associate (CDA), a national early childhood certification credential, within 1 year of hire if employee does not have an associate degree or higher in early childhood or other related field.
- Infant/Child CPR certification within 30 days of hire date.
- One or more years of paid or unpaid experience in an early childhood program.
- Participation in a degree seeking program or internship where the major is in Education shall be credited as experience.
- Associate's degree level program candidates shall be credited 1 year experience and Bachelor's degree program candidates shall be credited 2 years' experience.

**Preferred qualifications for this position include:**

- Associate Degree or higher in Early Childhood or related field.

**About Providence Alaska Medical Center**

Providence Health & Services Alaska is among nation's best employers for healthy lifestyles! The National Business Group on Health, a non-profit association of large U.S.

employers, has honored Providence Alaska for its commitment and dedication to promoting a healthy workplace and encouraging our caregivers (employees) and families to support and maintain healthy lifestyles. Mountain-Pacific Quality Health has awarded Providence Alaska Medical Center with its Quality Achievement Award for high-quality care in the areas of heart attack, heart failure, pneumonia and surgical infection prevention. This is the highest honor awarded by Mountain-Pacific.
