FOCUS Positive Behavior Extended Day Preschool

Supporting young children in Eagle River with challenging behaviors in a small group setting (6-8 children). At FOCUS Positive Behavior Preschool, we believe every child is a unique individual who deserves a safe, secure, caring, and stimulating learning environment in which to grow and mature socially, emotionally, intellectually and physically.

Job Opening - Teacher

FOCUS is seeking a teacher who has a heart for children with challenging behaviors. Knowledge of best practices in early learning and positive behavioral supports is desired. The Lead Teacher will:

- Use positive behavior support framework to promote social and emotional development and prevent and address challenging behavior
- Prepare young children for kindergarten by fostering the child's capacity to engage more effectively with teachers and peers
- Actively engage with children throughout the daily schedule and create opportunities to make meaningful, trusting relationships
- Support children through difficult times and model and coach problem-solving and social interactions

If you have a great love and patience for young children and a desire to facilitate the healthy mental and emotional development of the child, we want to hear from you! Call our Preschool Director, Cindy Higgins at (907) 694-6002.
